## The Falling Away (2 Thes. 2:3-12)

1500 BC – 70AD\* ..... 3<sup>rd</sup> AD ..... 14<sup>th</sup> AD ..... 2010

The origin of this Name is [Ibry] or Hebrew. It is found in the oldest Hebrew texts dating back to early BC. It is parallel but not to be confused with the English “Joshua”. The “J” pronunciation in Hebrew is not possible. In Zech 6:11-13 His Name is given and He is prophesied as the “The Branch” Who would be The Messiah. This is the same Name that Gabriel gave Miriam, because He would save us from our sins. In the TaNaK the rendering of His Name appears 218 times. Two of those times its spelled יהושוע [Yahuwshuwa]. 216 times its spelled יהושע [Yahusha]. “Shuwa” found in Hebrew SL #7769, 7770 means “cry, wealth” and “a Canaanite”, so thats not it. יהושע is based on the root יושע YASHA HSL [#3467] which means salvation, and deliver. Just what He came to do. His Father’s Name is יהוה [YAHUAH]. His Son fulfilled the verse that stated He came in His Father’s Name, literally. יהו [YAHU] means “I AM HE” or “YAHUAH is HE” which are in both names.

This is seen in strong’s HL #3091. It can be historically documented that the “Jews” didn’t want to say the Name of the Most High. So the same formula that blotted our Av [Father’s] Name out seen in strong’s HL #3068 was also applied to the Son. The “YAH” part that meant “I AM” or “I EXIST” (see HL #3050) was taken out [amongst other transliteration corruption]. This stemmed from the scribes adding a vowel pointing system to the pure Hebrew words.

[Yeshua] is another false name of the original Name. This is a Aramaic form seen in the “Passion of the Christ”. The root [Yeshu] stood for a “Jewish” parable. Yemach Shemo Vezichro which was a curse that meant “may His Name and memory be blotted out”. This is just what evil scribes did. People forget that names are not translated, but transliterated to keep the same pronunciation. Example of this is 姚明=Yáo Míng. Yeshua was found in the Masoretic texts. The Masoretic scribes broke יהוה [YAHUAH]’s commandments in order to keep their traditions.

In the 3<sup>rd</sup> century reports say that Constantine looked into sun and seen a XP which stood for part of [CHRISTOS]. Then pure faith was mixed with paganism and Christianity was born. In 321\*, Constantine enforces the first civil law to change the Sabbath to Sun-Day to honor his gods, breaking the 4<sup>rd</sup> commandment thus beginning the Mystery of Lawlessness. Then an incomplete translation found its way into the Codex Sinaiticus [oldest Greek bible] which was properly one of the fifty copies of the Bible commissioned from Eusebius by Constantine. He and his council closed the NT canon around 367\*. Years earlier, IESOUS found in Greek Strong’s #2424, appeared in the Septuagint. It was a false name to honor their gods who are the Baals = Satan. Iesus actually has a Hebrew meaning. Hebrew Strong’s L #5483 is “SUS” which is how you pronounce the last half of le”sous”. “Sus” means Horse = war, power, plagues, ect. Psalms 33:17 says “an horse is a vain hope for safety, neither shall he deliver any by his great strength. “ (Also see Rev 6:1-8)

These can be found in numerous bibles like the KJV 1611, Geneva, ect. The Greek word “Anti” means instead of, or in place of something. These’s names have tried to take the place of יהושע, and a strong delusion has plagued the world. Those that won’t believe the Truth, will receive The Mark. History proves “Jesus” is no more than 500 years old. Early paintings of Caesar Borgia, posed as The Messiah and “images” like the Last Supper have created a lie. “Sus” is rendered [samekh waw samekh] and is the only word in the Hebrew scriptures that equals 666. (Rev 14:9-13)
